	A-DATA Technology www.adata-group.com Hall 21 E56 www.adata-group.com Hall 21 E56	T806 Kissing Octopus Couple Drive	<p>Based on the concept of kissing, A-DATA launched T806 Kissing Octopus Couple Flash Drive. With the charming heart shaped eyes and lovely pouting mouth, the design of T806 represents great passion for romance. T806 comes in two colors - light pink and sky blue. These two colors represent a lovable couple. Each color of the octopus equipped with a different magnetic pole. When you put these lovable octopuses together, they will stick to each other and form a hot kiss! You can also use it as a magnetic sticker! Let these lovely couple awake the childhood memory deep inside you.</p>	
	AIPTEK International Inc. www.aiptek.com.tw www.adata-group.com Hall 21 E56	PocketCinema V10	<p>PocketCinema V10 is the world's 1st Multi-Media projector. Without connecting with computer, PocketCinema V10 can directly project and play photo, video and music around 50" on any plain surface. Play games, share videos and photos from video console, camcorder and cell phone are available. For the businessmen, without carrying the heavy notebook, use PocketCinema V10 to display the presentation to the customer. It is convenient and fun. For the teenager, share the photos and videos with your friends in the cafe or pub is cool. For the sweet family, watch movie and play games together from the giant projected screen at home is fantastic.</p>	
	ASUSTek Computer Inc. www.asus.com Hall 26 D39	Essentio CS5110	<p>Slim and Stylish with Splendid Graphics</p> <ul style="list-style-type: none"> International Design Award Winner crafted with high gloss and satin finish. Flawless and ultra-smooth high definition graphic performance. High connectivity with Bluetooth 2.0+EDR and WiFi 802.11b/g/n. 	
	AverMedia Information Inc. www.avervision.com X	Interactive Visualizer AverVision CP300	<p>The AVerVision CP300 is a revolutionary tool that helps to bring all types of presentations to life. The 3.2 megapixel, auto focus camera gives pin sharp images of text documents, photographs, 3D objects, microscopic images and much more. Many of the device's features are operated via its innovative shuttle wheel on the control panel or by remote control. One finger movement is enough to zoom in and out as well as navigate through pictures stored on its internal memory.</p>	
	Champteck Incorporated www.champtek.com	VEGA, Hand-Held CCD Wireless Barcode Scanner	<p>VEGA CCD Barcode Scanner aims at providing trendy and user friendly scan experience for retail industry. It features with:</p> <ul style="list-style-type: none"> "High Tech, High Touch" experience. Ergonomic design consideration (balanced gravity point, fatigue-resistant for long time usage, wrist injury prevention). Thoughtful usability (anti-slippery, transparent upper case display for marketing message delivery) for operators. 	
	Cooler Master Co., Ltd. www.coolermaster.com Hall 21 E39/D39	V8	<p>Cooler Master's V8 engine generates enough horsepower to cool down any high-performance CPU. With its muscular design, it is destined to raise some eyebrows with the enthusiast and case modding crowd. The design is inspired by the supercharged race engines of today and integrates a very effective vertical and horizontal airflow for optimal cooling performance. This is accomplished with 4 separate modular sets of aluminum fins and 8 heat pipes. An adjustable fan speed controller enables alteration of RPM, giving the perfect balance between cooling performance and noise level.</p>	
	D-Link Corporation www.dlink.com.tw X	DCS-3415	<p>The DCS-3415 network camera is ideal for high-end surveillance and security applications. The progressive scan sensor and 18x optical zoom lens captures vivid images in MPEG-4 format. The built-in auto-iris feature and a removable IR-cut filter make this camera suitable for 24-hour surveillance. Its PoE ability allows a single cable to connect and power it. The unique outer metal ring represents a safe environment and not just a "secured space." Discreet looks and the two-tone design further brand the camera.</p>

	Icon 7 Inc. www.icon7.com 	Twister™ Evolution Presenter Laser Pocket Mouse	Twister™ Evolution features SmartTwist™ design to twist the mouse into a wireless presenter. Its FlyThrough™ helps you to scroll a long document, plus unique PowerTag™ innovation, which allows to snap on a notebook computer for carrying convenience and charging on the go.	
	Lei Yueh Enterprise Co., Ltd. www.leiyueh.com 	LED Glass Brick LGB-RW-TC-BEX	LED Glass Brick opens up new territories for decorative lighting to explore, as it changes the decorative lighting from a static lighting presentation, into a dynamic and live lighting presentation. It is the product which aims to introduce this new vibrant lighting effect for all users. These visual effects would greatly enhance the interaction between user and its application environment. LED Glass Brick provides the standardization module designs of light-source and glass for texture glass customization. It can offer user to custom collocate any glass-type materials for producing a colorful presentation at your home living environment.	
	MiTAC International Corp. www.mio.com.tw 	Mio Moov 380	Mio Moov 380 features SIM-card support to offer GPRS connectivity. Users can make phone calls directly and conduct local searches for the most update-to-date points of interest on the Web while navigating.	
		Mio Leap K1	Leap K1 is the world's first dual-screen Navigation Phone. To provide a superior user experience, the K1 integrates a stylish phone with a user-friendly interface on one side, and a full-functioning flat panel navigation system on the other side.	
	Power Quotient International Co., Ltd. www.pqigroup.com 	Intelligent Drive i828	<p>PQI Intelligent Drive i828's features unlimited add-on capability and is the first of its kind implemented into USB flash drive technology. Making use of existing i828(s), users can add-on extra capacity and still carry just the one USB flash drive! Aesthetically designed, it is constructed with carbon material with finger-proof material.</p> <ul style="list-style-type: none"> ● Special COB construction process making it a one-body design, waterproof, dustproof. ● Unlimited add-on capacity. ● Store data on separate drives for convenient categorization. 	
	Qisda Corporation www.Qisda.com 	Photo Scanner QPS-101	The QPS-101 is designed to "eliminate complexity and embrace simplicity." It's a slim and easy-to-use photo scanner. The entire scanning process can be completed without a computer, allowing users unfamiliar with digital products to easily operate the device and convert traditional pictures into digital format. Besides, the simple user interface enables users to easily operate the device without a long learning process.	
		HSUPA USB Modem QHM-21 3.75G	QHM-21 is a portable HSUPA USB Modem. Inspired by ladybug, the antennas can be swung open or retracted like a ladybug's wings, with one touch on the button, to activate the wireless connection. The design creates an interesting association of "free wireless connection" with "careless flying of a ladybug." This slim and compact device also serves as a portable USB flash drive.	
	Thermaltake Technology www.thermaltake.com	SpinQ	SpinQ offers users a cooler with attractive appearance and superb performance. The unprecedented spiral fin design makes it a high standard of aesthetics, and its glitter visual effect is absolutely irresistible. The classic cylinder style also adds on an extra professional shine for the owners. 6 heat-pipes and mirror coating copper base guarantee excellent cooling performance. The 8 cm VR blow fan with blue LED light not only keeps air convection within chassis but also creates mysterious atmosphere, and users can adjust the fan speed according to their needs. The fan blade is designed to optimize the air-flow and minimize the noise.

	Hall 24 C02	DuOrb CPU	<p>The presentation of DuOrb CPU brings coolers to a new era. The two 80 mm fans are equipped with LED lights, one with blue and one with red. This design form a Dual-Flow which further utilize system air flow to cool down surrounding temperatures and dissipates the heat of CPU, RAM, VRM, North Bridge, and the back of VGA card. One orb cools RAM area and the other orb cools CPU surrounding area. Six circular heat-pipes penetrate 362 fins to transmit heat efficiently, in addition, mirror coating copper base and all copper constructed fins provide maximum thermal dissipation performance.</p>	
EÜPA	Tsann Kuen Enterprise Co., Ltd. www.tkec.com.tw X	TSP-A101: FORA Depot TSP-A202: FORA Catch TSP-A301: FORA Bravo TSP-A302: FORA Shine Slim	<p>For a Combo: The concept of the FORA series of products originated from the process of photosynthesis found in plants. It can provide you a clean energy environment and a cord free life.</p> <ul style="list-style-type: none">• "catch" absorbs the energy of sunlight during daytime, and storage the power into "depot", an electricity storage base, satisfying the various kinds of possible demands that might creep up on us in life. After the battery has been fully charged, you can place a "Shine slim", a portable LED light, as its sleek and simple appearance accompanies you while you are reading. You can also place "Bravo", a CD player on the battery, then just sit back, relax and enjoy a carefree life with care free.	
WNC <i>Wistron NeWeb Corp.</i>	Wistron NeWeb Corporation www.wneweb.com Hall 13 D79	Mobile TV Phone P81	P81 is a GSM/PHS Dual Mode phone with 2.8" touch lens and real time broadcast TV. It's a TV while horizontal and a cell-phone while vertical. P81 makes the user feel fresh and fashionable. Its design goal focuses on user friendliness, fantasy and fashion. Its finger touch operation and stylus build a closer relationship between users and electronic products. Real speaker technology emphasizes superior sound equipment. Like a mini theater, P81 overthrows the traditional meaning of a cell-phone.	
ZEBEX	Zebex Industries Inc. www.zebex.com X	Zebex Z-3051 HS Handheld High-Speed Laser Scanner	Z-3051HS is a high-speed single laser 1D barcode scanner with ZEBEX own designed engine, inherits its powerful and accurate performance for up to 500 scans per second. It is enhanced through build-in real-time hardware decode technology guarantees an unbeatable first read success rate. This ergonomic and lightweight handheld scanner is ruggedly encased; its small-footprint stand saves most counter space. Equipped with multi-interface communication, it has an impressive scanning performance that ensures hassle-free integration into any retail, office or warehouse environment.
